As the academic medical center and University Hospital for Albert Einstein College of Medicine, Montefiore Medical Center is nationally recognized for clinical excellence—breaking new ground in research, training the next generation of healthcare leaders, and delivering science-driven, patient-centered care. We provide coordinated, compassionate and leading-edge care designed to reach people when and where they need it most. Through highly integrated teams of physicians, nurses, social workers, mental health professionals and other caregivers, we have created an innovative, seamless system of care focused around the patient. Videos Hospital Network The Albert Einstein Healthcare Network, a private, not-for-profit healthcare system serving the greater Philadelphia area, is poised to roll out new technology aimed at improving patient care. The health system will implement healthcare information technology from Kansas City, Mo.-based Cerner to create a unified electronic medical record for each of the more than 550,000 patients that visit Einstein hospitals and outpatient facilities each year. Cerner Millennium software will make it possible for doctors and nurses to electronically document care in the patient's record, access research about medical best practices, automate hospital processes in multiple departments and connect medical devices to the EMR. "Implementation of Cerner Millennium solutions will provide doctors and nurses throughout the Albert Einstein Healthcare Network with access to evidence-based knowledge that will help them provide better care to patients," said Barry Freedman, Einstein's president and CEO. "Our clinicians will be able to access up-to-date patient information and medical best practices at our hospitals and outpatient facilities." The Cerner Millennium healthcare computing platform provides secure access to an individual's EMR at the point of care and organizes information to meet the specific needs of care providers, front- and back-office professionals and consumers. "The goal of this collaborative project between Cerner and Albert Einstein Healthcare Network is to improve care for patients by using a proven, evidence-based system to facilitate communication and decrease potential sources of error," said Trace Devanny, Cerner's president. Envie um e-mail para ajuda@einstein.br Para agilizar o atendimento, anexe no e-mail uma foto do passaporte + uma selfie com o passaporte. \*Tire fotos da página de informações pessoais e certifique-se que as imagens estão em contato em até 48h. Montefiore Medical Center, the University Hospital for Albert Einstein College of Medicine, has three full-service acute care hospitals located in the Bronx. The medical professionals at Montefiore are committed to the comfort and well-being of you and your family members during your hospital stay. Whether you are interacting with physicians, nurses, technologists, therapists or volunteers, please be assured that we are all working together to ensure you receive the highest-quality, compassionate care. Hospital Room Options Patient units are organized by medical specialties and are equipped for your medical care, comfort and safety. You may request your preference, although your first choice may not always be available. When assigning rooms, the hospital considers medical need as our first priority. There are two types of rooms available to patients: Semi-private (covered by insurance) Private (additional charge not covered by insurance) It is a good idea to check with your insurance carrier or employer regarding your coverage before coming to the hospital. Guidelines on Bringing Personal Belongings While we encourage you to bring items with you that will increase your well-being and comfort, Montefiore cannot be responsible for personal items. To safeguard your personal belongings and to meet hospital rules, we ask you to keep the items you bring to a minimum. Your nurse will list your personal items in an inventory when you are admitted and you may request to place valuables in our hospital safe. Please follow these guidelines during your stay: Please leave valuables such as jewelry, cash or credit cards at home. Battery-powered items are permitted, but please leave electrical appliances (hairdryers, shavers, televisions, radios, etc.) at home, as they may interfere with medical equipment. Personal items such as eyeglasses, hearing aids, dentures and assistive devices like canes should be marked with your name and room number. When not being used they should be stored in labeled cases or containers as appropriate. Additional clothing is not needed and we suggest that you don't keep your street clothes with you in the hospital. Ask a friend or family member to take home the clothing you wear to the hospital and bring clothes for you when you are ready to be discharged. Telephone Service at the Hospital Cell phone use is permitted on patient floors but in certain areas may be restricted due to interference with medical equipment. A telephone is available at your bedside. Incoming calls are free and af daily fee is charged for local calls you make. To activate this service, dial ext. 8400 at Moses, ext. 2017 at Weiler and ext. 9851 at North. Telephones in hospital rooms will not permit long-distance calls. You may use a calling card for making long-distance calls or place them as collect calls. Meals Montefiore is sensitive to cultural dietary guidelines and restrictions. Meals served at Jack D. Weiler Hospital are prepared under rabbinical supervision in accordance with Jewish dietary laws (KASHRUTH). For special needs or concerns about meals, contact the Nutrition Department at each hospital between 6:00 am and 6:00 pm daily. Montefiore Hospital: 718-920-2771 Jack D.
